App Description

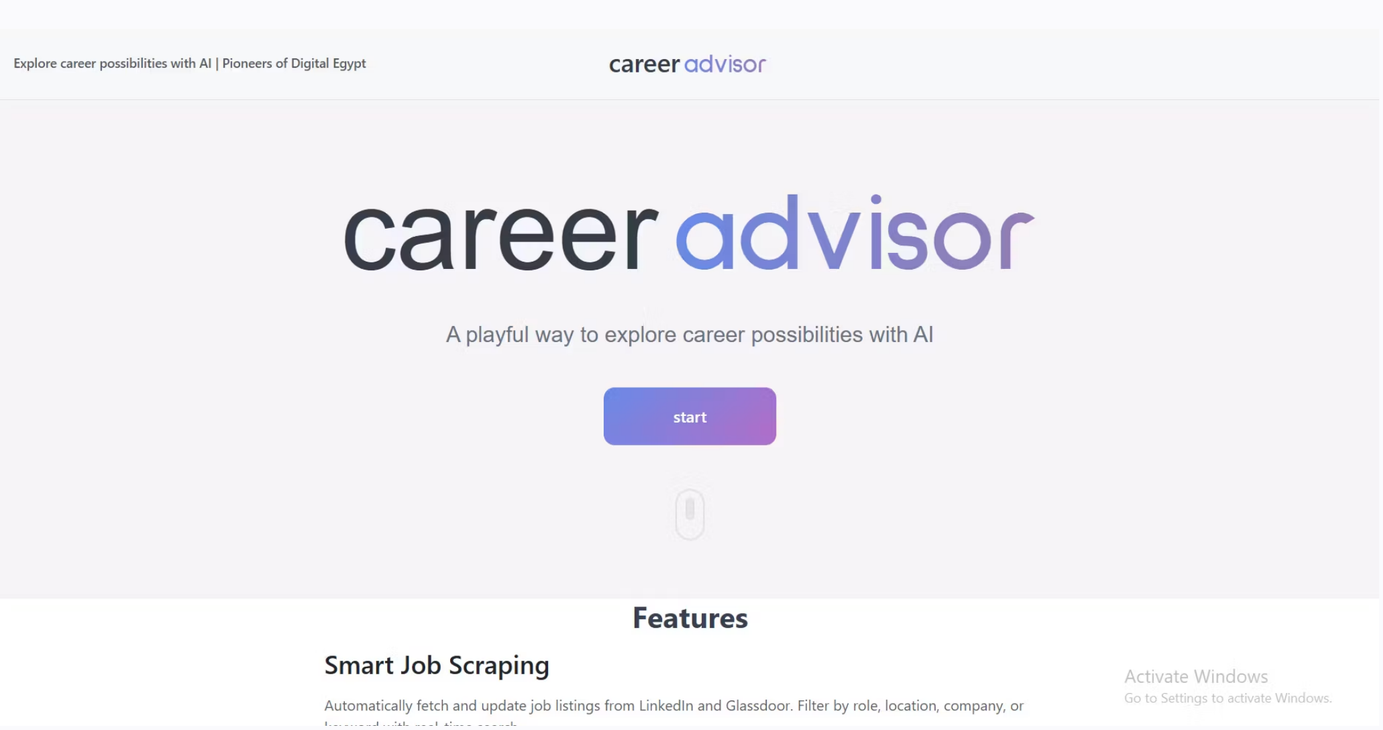

Our platform is a **smart job search and application management dashboard** designed to simplify and centralize the entire job-hunting process for candidates.

Instead of searching across multiple platforms, the app **aggregates job listings from leading sources such as LinkedIn and Glassdoor into one unified dashboard**. Candidates can explore opportunities, track their applications, manage interview reminders, and maintain their professional profile—all in one place.

The platform empowers job seekers to stay **organized, efficient, and focused**, eliminating the chaos of scattered applications and missed follow-ups. With a clean, intuitive interface and powerful tracking features, users gain full visibility into their job search journey from discovery to interview.

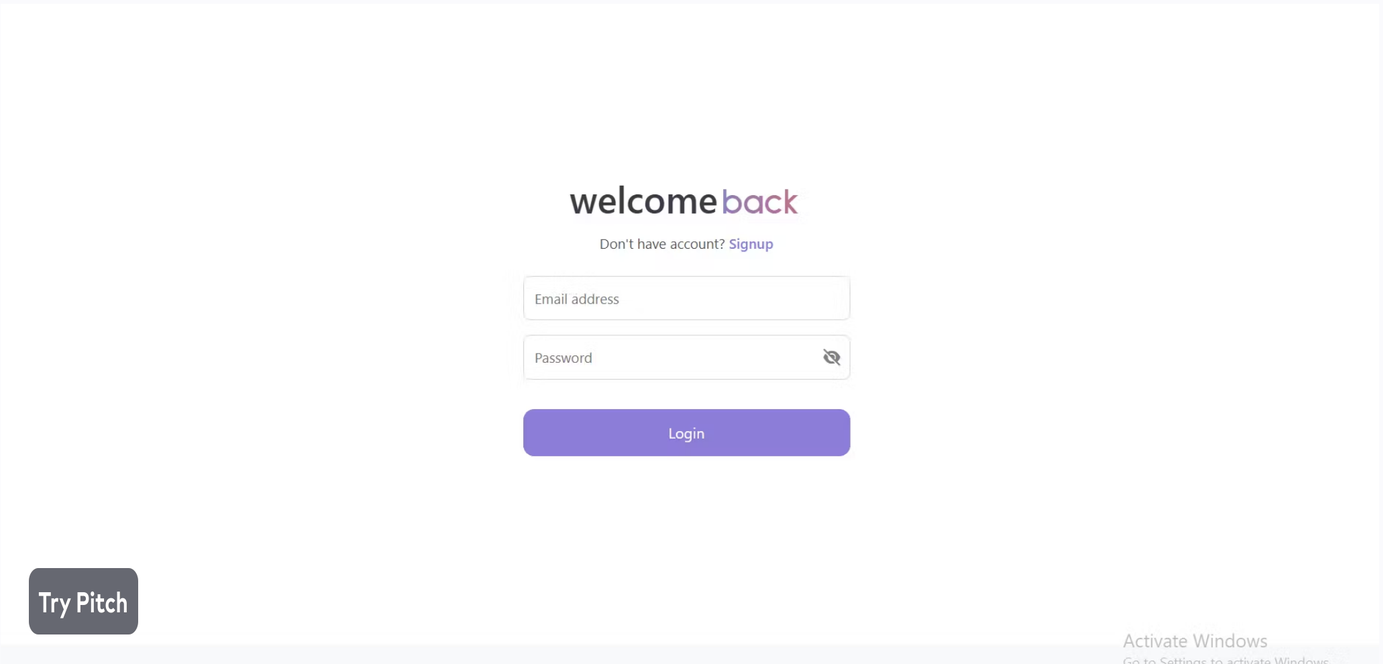

Our solution saves time, reduces friction, and transforms job searching into a **structured, stress-free experience**—helping candidates move faster and smarter toward their next career opportunity.

Try Pitch

Landing Page – Summary

A unified job search platform that brings opportunities from **LinkedIn and Glassdoor into one dashboard**. Explore jobs, track applications, manage interview reminders, and stay organized throughout your job search—all in one place.

Login & Authentication – Summary

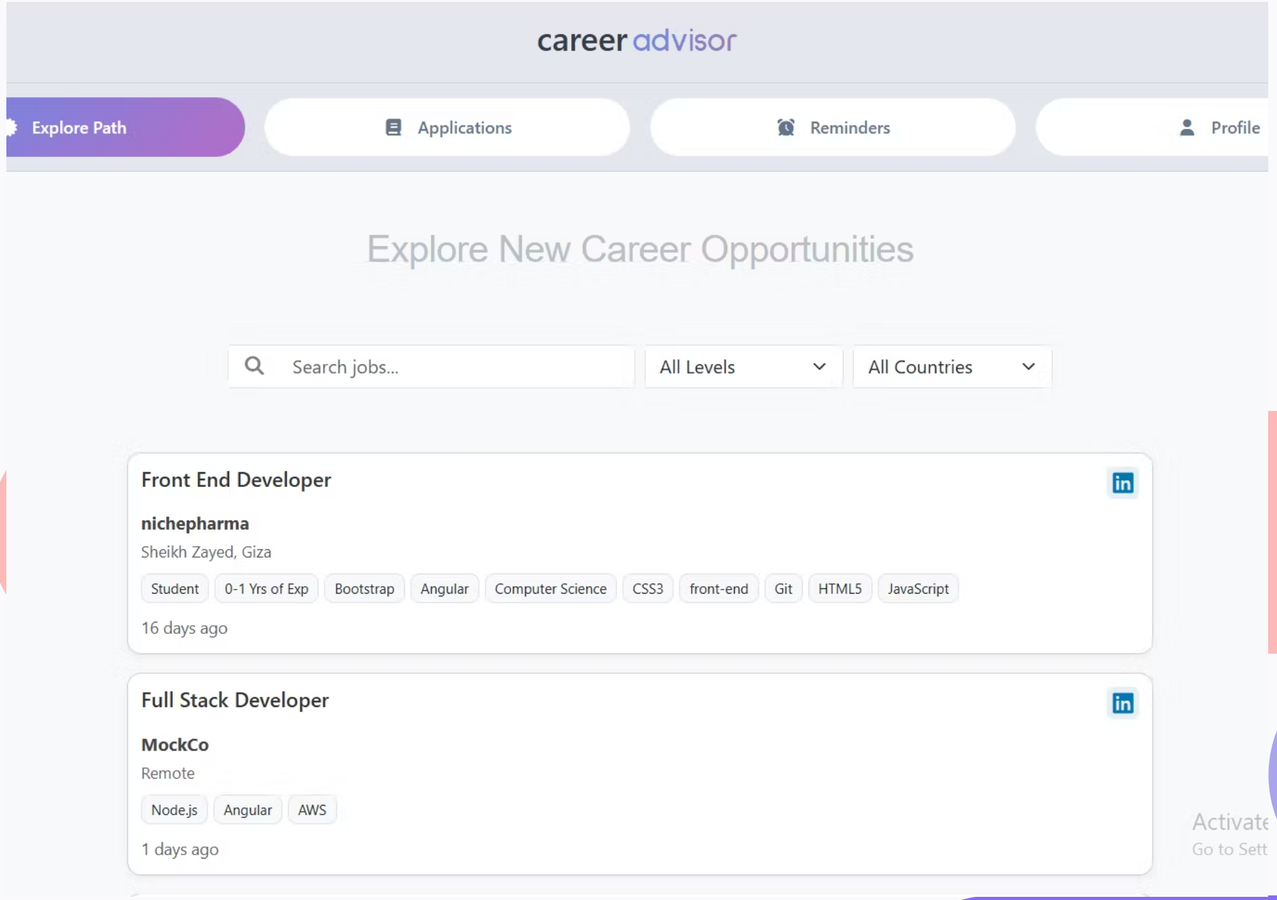

A secure and simple login system that gives users access to their **personalized job dashboard**, keeping applications, reminders, and profile data private and protected.

Explore New Career Opportunities

The Jobs page provides a **centralized job discovery experience**, bringing together listings from **LinkedIn and Glassdoor in one unified feed**. Users can explore a wide range of opportunities without switching between platforms.

Each job listing includes key details such as the job title, company, location, and source platform, allowing candidates to quickly evaluate opportunities. Advanced search and filtering options help users find roles that match their skills, preferences, and career goals.

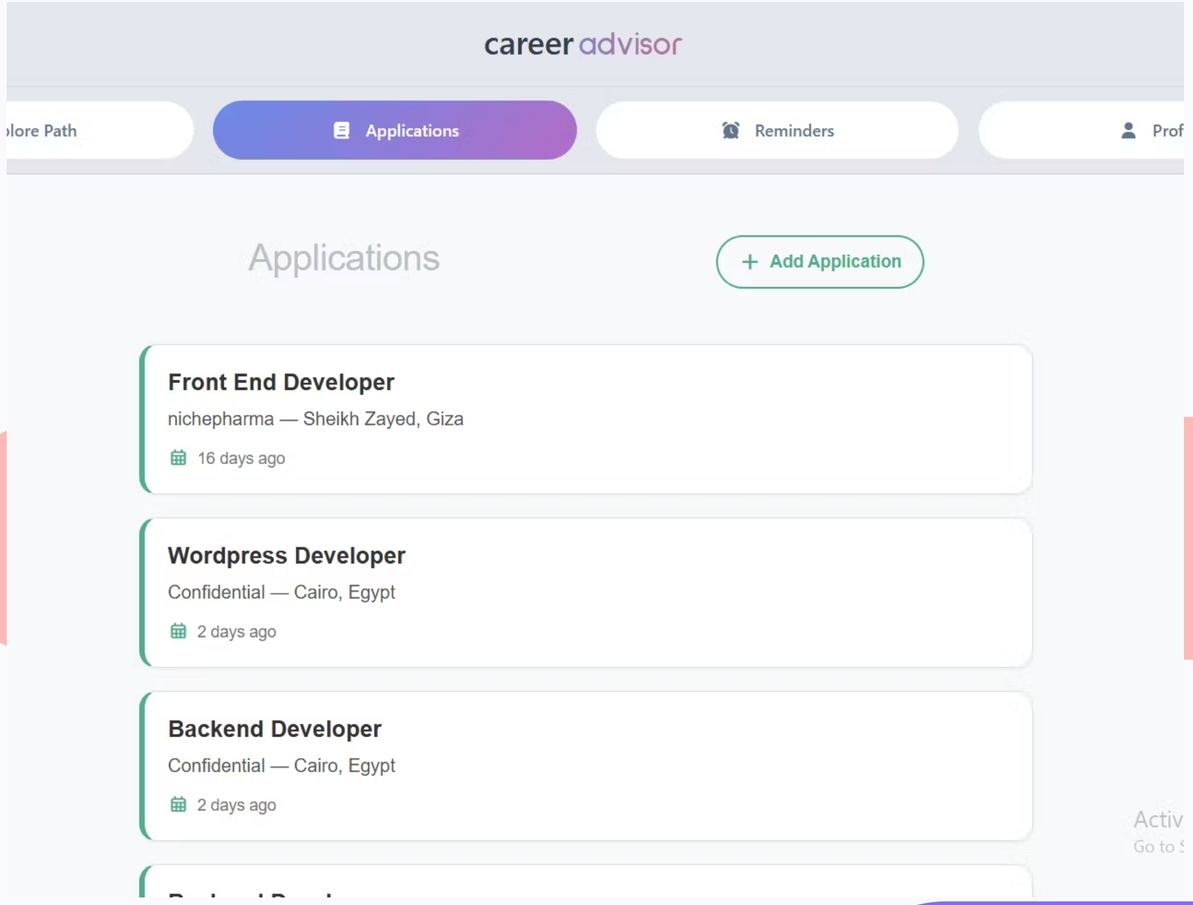

By aggregating jobs from multiple platforms, the Jobs page saves time, reduces friction, and helps candidates discover the right opportunities faster and more efficiently.

Try Pitch

Applications

The Applications page helps users **track and manage all their job applications in one place**. It provides a clear overview of every position the user has applied for, regardless of the source platform.
Users can update the status of each application—such as *Applied, Interview Scheduled, Rejected, or Offer Received*—and add notes or important details. This organized view allows candidates to monitor progress, follow up effectively, and stay in control of their job search.
By centralizing application tracking, the Applications page removes confusion, prevents missed opportunities, and brings structure to the job-hunting process.

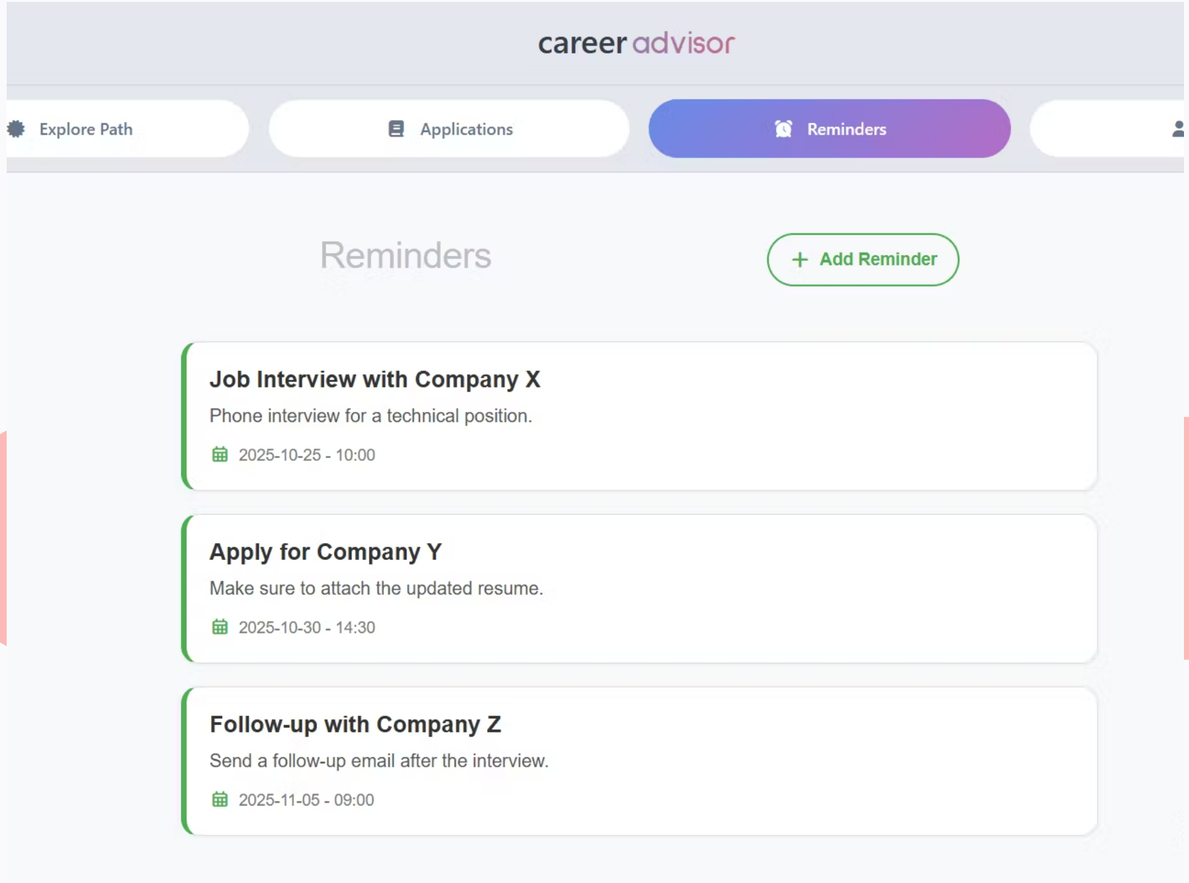

Try Pitch

Interview Reminders

The Interview Reminders page helps users **stay on top of all upcoming interviews** by providing a clear and organized view of scheduled interviews. Users can set reminders for each interview, including **date, time, company, and job title**, ensuring they never miss an important opportunity.

With calendar-style or list-based views and notification options, this page **keeps candidates prepared and on schedule**, making the interview process stress-free and fully manageable.

By centralizing interview tracking, users gain **confidence, organization, and peace of mind** throughout their job search journey.

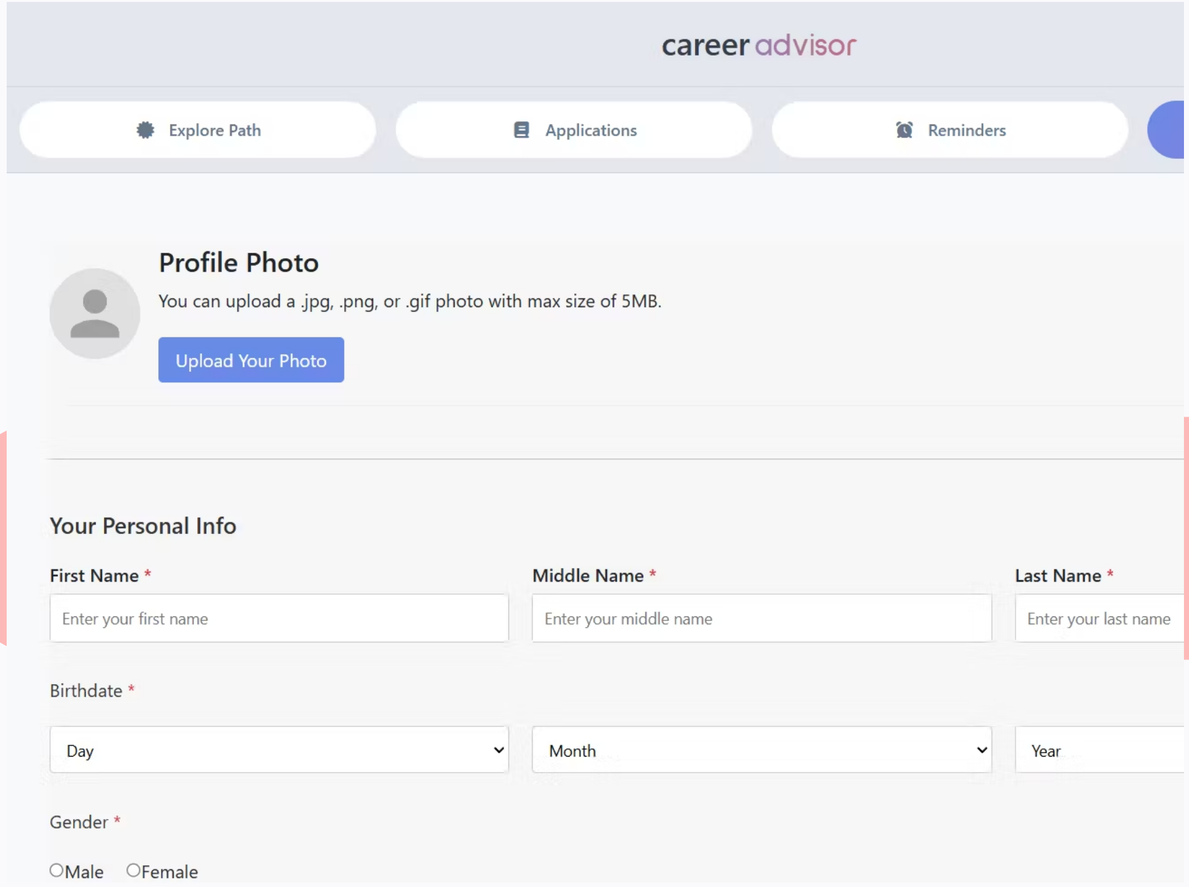

Try Pitch

Candidate Info Profile

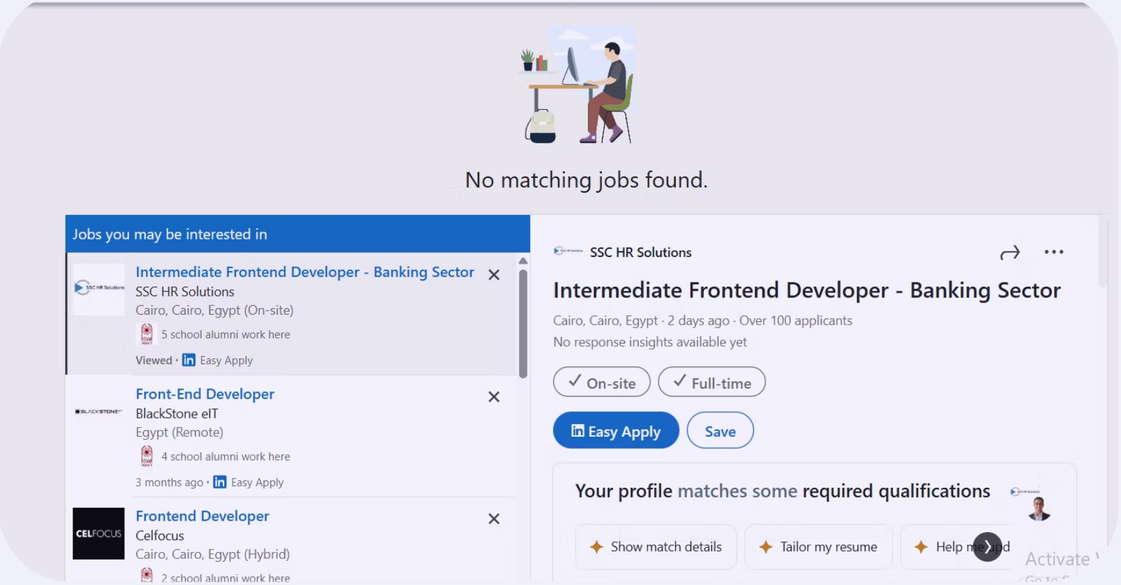

The Candidate Profile page allows users to **view and manage their personal and professional information** in one place. Candidates can update details such as **name, email, job preferences, skills, experience, and resume/CV**.

This page ensures that all relevant information is accurate and up-to-date, helping the platform provide **personalized job recommendations**. By keeping the profile organized and complete, users can present themselves effectively to potential employers and streamline their job application process.
